ANNOUNCEMENT

CALIFORNIA PETROLEUM AND REFINING COMPANY OF COLUSA COUNTY, CALIFORNIA

THE OIL INDUSTRY, this company owns a perpetual lease upon 720 acres, right in the heart of the new oil district in Colusa County California and is now prepared to take subscriptions for treasury stock. The directors of this company a short time ago, authorized the sale of 100,000 shares of the Treasury stock at 25c per share, but since that time the company has practically made arrangements with the California Corporation Commission to sell its stock in that state, and when those arrangements have been completed the company will open an office either in San Francisco or Los Angeles and the price of the stock will be raised to 50c per share.

STATEMENT OF MR. T. J. MEDDOCK

THE CALIFORNIA PETROLEUM AND REFINING COMPANY

Gentlemen: I take pleasure in sending you a brief statement upon your oil holdings of Colusa Co.

California. First of all, you are centrally located in what is almost certain to be in the near future districts of California. Next in

TO THE PUBLIC

After studying the outlines of this wonderful structure in the picture herewith presented and considering its After a further and more thosignifigance in the oil world you should not fail to grasp the opportunity now available, visit our office now open, and see samples of oil produced in that district. The highest grade lubricating oil yet discovered, and brings the highest price paid for a crude product, also specimens of the formation, an oil shale with all sorts property. of fossels and shells cemented together. Although the district is quite new there are many drills now at work one of the great oil producing and many more will be working soon.

line is that most wonderful structure commonly called a "dome" or sign post for geo logists. Ladoubtedly this dome was forced up by great pressure, for it seemingly has no connection whatever with a glacier slide, considering the distance it lies from the nearest mountains, which is a low range, and practically only footbills.

The quality of the oil produced in that section is almost without an equal, and according to a cross section map made by the Tuscan Oil Company which is operating in that district, which I have examined thoroughly, and no doubt that company has proven to be correct, by the drillings of their well. I find that the formation and all surface indications are most excellent. rough examination which I will make very soon I will forward to you a full detailed report, and the possibility of your
